

Product Data Sheet

GRM Composite Structural Members

Benefits:

Corrosion Resistant
High Strength/Weight Ratio
Low Thermal & Electrical Conductivity
Easy Installation

Design Data:

Olive Green: An all-purpose series utilizing an isopathic polyester resin system.
Slate Grey: A fire-retardant series utilizing an isopathic polyester resin system.
(Some components and shapes are also available in Safety Yellow)
Beige: Premium series featuring both fire-retardant and highly corrosive-resistant vinyl ester resin.
FDA Resins Available
Standard and Custom Shapes

Typical Specifications:

FRP Structural Members are the building blocks of a well-designed project. They provide the structure and support needed to build an elevated platform, attach a ladder or reinforce a retaining wall. They offer many unique benefits over traditional materials. If your company is looking for a solution that can replace wood, steel or aluminum without compromising strength then look no further.
